

# Aquatic Ecology BIOL 4200

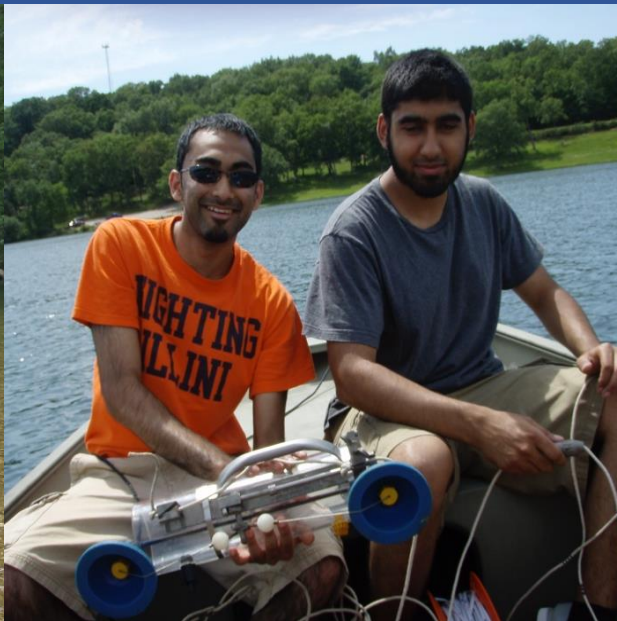

Saint Louis University at Reis Biological Station

Summer 2023 May 22, 2023 to June 10, 2023

Instructor: Dr. Rob Wood

An exploration of freshwater ecosystems in Missouri including springs, rivers, and lakes. The course will explore the diversity of living organisms, both animals and plants, found in these ecosystems. A major goal will be to understand how the physical and chemical properties of water affect the abundance and diversity of aquatic organisms.

All Courses are 4 Credit Hours

Session Runs From May 22, 2023 to June 10, 2023

Cost: Approximately \$3200 for Tuition and \$350 for Food.

**All buildings have AC.**

Transportation to and from the Field Station is provided.

For more information contact Dr. Wood ([robert.wood@slu.edu](mailto:robert.wood@slu.edu))

**Registration Open Now!**
