

# Master Techniques in Peri-Orbital Aesthetic Surgery

Part I: March 22-24, 2024

Part II: March 25, 2024

Auditorium

Zeiss Learning Center (ZLC)

2<sup>nd</sup> Floor Dining Room

Saturday, March 23, 2024		
7:00am	Registration and Continental Breakfast / Transition to Lab Attire	
<b>Upper Blepharoplasty</b>		
7:30 am	Announcements	
7:40 am	How Facial Anatomy Dictates Surgery	
8:00 am	Upper Blepharoplasty – Evaluation, Anatomic Considerations, Surgical Steps	
8:25 am	Ancillary procedures in Upper Blepharoplasty	
8:45 am	Avoiding and Managing Upper Blepharoplasty Complications	
9:05 am	Break and Exhibits/ Change into lab attire	
9:35 am	<b><u>Cadaver Demonstration:</u></b> Upper Blepharoplasty with Ancillary Procedures Upper Blepharoplasty Lacrimal gland resuspension, modification of the upper eyelid fat with fat transposition techniques, lid crease alteration techniques, ROOF fat modification, incision closure, post operative care	
10:15 am	<b><u>Hands-on lab Cadaver Dissection:</u></b> Upper Blepharoplasty, Lacrimal gland resuspension, modification of the upper eyelid fat with fat transposition techniques, lid crease alteration techniques, ROOF fat modification, incision closure	
11:30 am	Lunch and Exhibits	
<b>Lower Blepharoplasty/ Canthopexy/ Canthoplasty</b>		
12:30 pm	Lower Lid Blepharoplasty – Evaluation, Anatomic Considerations, Surgical Steps	
1:00 pm	Ancillary Procedures in Lower Lid Blepharoplasty Incision choice, lateral canthal repositioning, orbicularis sling, fat transposition, midface lifting, liposculpture with fat transfer, soft tissue filler volume augmentation, skin management (laser, peels, skin pin (laser muscle flap, radiofrequency)	
1:25 pm	Avoiding and Managing Lower Lid Blepharoplasty Complications	
1:45 pm	<b><u>Live Cadaver Demonstration:</u></b> Lower Lid Blepharoplasty with Ancillary Procedures lateral canthal repositioning, orbicularis sling, fat transposition, midface lifting, liposculpture with fat transfer, skin management	
2:15 pm	Break and Exhibits transition to lab	

# Master Techniques in Peri-Orbital Aesthetic Surgery

Part I: March 22-24, 2024

Part II: March 25, 2024

Auditorium

Zeiss Learning Center (ZLC)

2<sup>nd</sup> Floor Dining Room

2:45 pm	<b>Hands-on Cadaver Dissection Lab:</b> Lower Blepharoplasty with Lower Lid Blepharoplasty with Ancillary Procedures lateral canthal repositioning, orbicularis sling, fat transposition, midface lifting, liposculpture with fat transfer, skin management Fat Repositioning/ Canthopexy and Canthoplasty	
4:00 pm	Blepharoplasty, Lessons Learned, Case Discussion, Panel Discussion	
5:00 pm	Adjourn	

<b>Sunday, March 24, 2024</b>		
7:00 am	<i>Sign-In and Continental Breakfast</i>	
<b>Brow Lift</b>		
7:30 am	Evaluation of Brow position, Anatomic Considerations in Browlift Surgery, and Steps in Open approach to Brow repositioning (direct, pretrichial, coronal)	
7:55 am	Traditional Endoscopic Brow lift techniques	
8:15 am	Temporal brow lifting without an Endoscope.	
8:35 am	Gliding Browlift Techniques	
8:55 am	Avoiding and Managing Browlift Complications	
9:15 am	<b>Live Cadaver Demonstration:</b> Browlift Techniques – Direct, browpexy, pretrichial, endoscopic, limited incision without endoscope	
9:50 am	<i>Break and Exhibits/Transition to Lab Attire</i>	
10:20 am	<b>Hands-on Cadaver Dissection Lab:</b> Browlift Techniques – Direct, browpexy, pretrichial, endoscopic, limited incision without endoscope	
2:30 pm	Lunch	
1:30 pm	Browlifting experiences, lessons learned, case discussions, Panel discussion	
2:30 pm	Participant Case Study Review for blepharoplasty and brow repositioning. Cases should be sent in advance. Participants will present.	
5:00 pm	<i>Adjourn/ Facility Closes</i>
