

The School of Medicine strives to recruit, admit, retain and graduate a diverse student body.

SAINT LOUIS UNIVERSITY SCHOOL OF MEDICINE

encourages application from students who have achieved a high level of academic performance and who manifest in their personal lives those

human qualities compatible with a career of service to society. The University's mission statement affirms the value of a diverse educational environment to prepare students for life and work in a global society. To foster this mission, the School of Medicine strives to recruit, admit, retain, and graduate a diverse student body. Besides ethnicity, this diversity encompasses differences based on gender, culture, and economic circumstances.

EDWARD A. DOISY RESEARCH CENTER

Represents a natural next step in the evolution of the University's long standing research tradition, all with the goal of making our world a healthier place.

SAINT LOUIS UNIVERSITY SCHOOL OF MEDICINE

*Higher purpose.
Greater good.*

OFFICE OF ADMISSIONS

Established in 1836, the School has the distinction of awarding the first M.D. degree west of the Mississippi River.

SAINT LOUIS UNIVERSITY SCHOOL OF MEDICINE

is proud to be part of the 450-year tradition of Jesuit education. Established in 1836, the School has the distinction of awarding the first M.D. degree west

of the Mississippi River. Beyond the important objective of training competent physicians who are scholars of human biology, the School strives to graduate physicians who manifest in their personal and professional lives an appreciation for ethical and professional attitudes that reflect the Jesuit spirit and values, and effect the physician's interactions with patients and colleagues, and with society.

Working within an academic milieu committed to excellence, the faculty of the School of Medicine is engaged in medical research in both basic and clinical sciences. The School is a pioneer in organ transplantation, chronic disease prevention, cardiovascular disease, neurosciences and vaccine research, among others.

The School of Medicine trains physicians and biomedical scientists, conducts medical research, and provides health services on a local, national and international level.

YEAR 1 – FOUNDATIONS												
JUL	AUG	SEP	OCT	NOV	DEC	JAN	FEB	MAR	APR	MAY	JUN
