SSM Health Cardinal Glennon Children's Hospital

Exceptional Services

Fetal Medicine

SSM Health Cardinal Glennon St. Louis Fetal Care Institute is one of the leading comprehensive fetal care programs in the country.

SSM Health Cardinal Glennon Children's Hospital is home to the St. Louis Fetal Care Institute and is a collaborative program between SSM Health Cardinal Glennon, SSM Health St. Mary's Hospital and Saint Louis University School of Medicine. The St. Louis Fetal Care Institute offers a variety of fetal diagnostic procedures, interventions and treatments for high-risk pregnancies, including open and minimally invasive fetal surgery for babies in the womb.

Neonatal Care

The Dana Brown Neonatal Intensive Care Unit is a Level IV NICU (the highest level of designation) and our doctors, nurses and specialists are available 24/7 to provide the highest level of care for the most complex diagnoses. A low ratio of patients to nurses ensures that each patient receives personalized care. The nurses and physicians consider patients to be an integral part of the care that babies receive.

Our specially trained and equipped neonatal transport team transports even the most critically ill baby safely to our NICU for specialized care from anywhere in Missouri, Illinois and beyond.

Hematology/Oncology

The Costas Center opened in 1998 and uses a team approach to diagnose and treat children with cancer and blood disorders. It provides a comfortable setting for children to receive prolonged treatments such as chemotherapy, transfusions or other drug treatments without having to be admitted to the hospital. Our physicians are leaders in the use of stem cell transplants for cancer and life-threatening blood and immune disorders.

Cardiology

The Dorothy and Larry Dallas Heart Center makes cardiology care more convenient and more accessible for patients and their families. Families can expect comprehensive care which includes:

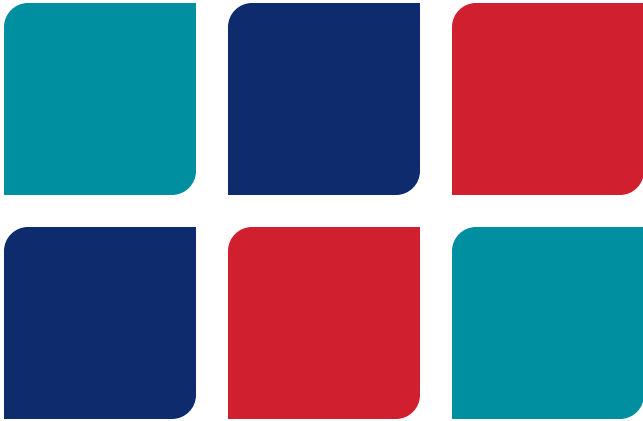

- Fetal cardiology
- Pediatric cardiology
- Interventional cardiology
- Cardiothoracic surgery
- Heart transplants

Our cardiology and cardiothoracic surgery team is consistently ranked as one of the top programs in the country by U.S. News & World Report.

Through our exceptional health care services, we reveal the healing presence of God.
