

Saint Louis University's Alternative Transportation Scavenger Hunt

This scavenger hunt, a program of SLUustainability Month, will focus on modes of alternative transportation available to SLU students. Throughout the scavenger hunt you will be asked to visit several different areas in our community and photograph those locations. Please be careful when taking photos while in transit (take pictures before or after the drive for safety purposes).

Objectives

- Encourage SLU students to utilize alternative transportation methods
- Allow SLU students to travel off campus and engage with the local community
- Share fun, positive St. Louis locations and experiences

Contest Rules

- **The scavenger hunt will run from 10/11 -10/19.** Winners will be announced at the Alternative Transportation Fair on 10/20 (between 11-2).
- Participants must be valid SLU students (undergraduate or graduate). Participants may work alone or in a group of no more than 3 students.
- Each location listed on the scavenger hunt will indicate the place you must travel to score points. You must post a picture of the location by taking a selfie and post to social media.
- Post your pictures to @greenbilliken on Facebook, Twitter, or Instagram using the #SLUintheCity #SLUgreen16 and your mode of transportation (#carpool, #bike, #walk, #STLMetro).
- Before starting the scavenger hunt, participants must communicate their mode of transportation via a selfie posted on social media. For example, if during the scavenger hunt you use MetroLink, take a selfie of yourself while riding it and post to @greenbilliken with #SLUintheCity #SLUgreen16 #STLMetro.
- At the end of the contest, all points will be added to determine the winner. However, all locations do not need to be reached in order to win the contest.
- Questions? Contact greenbilliken@slu.edu

Prizes
