Additional Questions

1. On what schedule/cycle will faculty assess each of the program's student learning outcomes? (Please note: It is not recommended to try to assess every outcome every year.)

We will assess one learning goal (with the associated learning outcomes) per year, on a rotating basis.

- 2016 — Goal 1 (with associated learning outcomes)
- 2017 — Goal 2 (with associated learning outcomes)
- 2018 — Goal 3 (with associated learning outcomes)
- 2019 — Goal 4 (with associated learning outcomes)
- 2020 — Repeat cycle

The sociology division director, in consultation with the department chair, will create and supervise an assessment committee, charged with (a) collecting and analyzing assessment data, (b) reporting findings, (c) tracking revisions to the curriculum, (d) updating and improving assessment plan, and (e) reporting activities to the University Assessment Coordinator.

2. Describe how, and the extent to which, program faculty contributed to the development of this plan.

A committee of faculty members worked with university experts external to the department to develop this plan. The original plan was implemented in Spring 2015 with the approval of the faculty. This plan (at least in part) is discussed and reviewed every May (by the assessment committee) and every August (by the department as a whole, when the committee reports its findings at the annual retreat). Specifics of the findings are then further addressed in division meetings.

IMPORTANT: Please remember to submit any rubrics or other assessment tools along with this plan.
