Use of Assessment Data

1. How and when will analyzed data be used by program faculty to make changes in pedagogy, curriculum design, and/or assessment practices?

Because of the importance of continuous program improvement, the program faculty embeds the process of assessment in each monthly faculty meeting. Depending on the month and availability of the data identified in the assessment cycle term, the faculty examines and analyzes the data. Following this analysis, faculty members discuss the strengths and weaknesses in the data, and then, make recommendations for improving pedagogy, curriculum design, and/or assessment practices. A small team of faculty who teaches courses in the Ph.D. program first reviews the data; presents the findings and recommendations to whole program faculty; and then solicits feedback that informs the annual assessment report.

2. How and when will the program faculty evaluate the impact of assessment-informed changes made in previous years?

Part of the design in the Education Leadership Ph.D. program's annual assessment cycle is to ensure an evaluation of the impact of assessment-informed changes in previous years occurs. In the cycle, this is accounted for by looping data and focus of program student learning outcomes. For example, in 2020, 2021, and 2023, the program faculty will analyze data from comprehensive exams taken by Ph.D. program students. In the first year, the focus is on student learning outcomes 1 and 2; the second year of looking at data focuses on learning outcomes 2 and 3-4; and the final year of looking at comprehensive exam data of the defined assessment cycle focuses on student learning outcome 1 and 5. Each year in the fall during "Moving Forward Day," faculty who teach in the Ph.D. program analyze the defined data and discuss the impact of the changes made (if any) from previous years. This requires cross-examination of the annual assessment reports.

Additional Questions

1. On what schedule/cycle will program faculty assess each of the program's student learning outcomes? (Please note: It is not recommended to try to assess every outcome every year.)

Using the 2020 Assessment Plan for the Educational Leadership Ph.D. Program, the faculty will assess each of the program's student learning outcomes on the following cycle:

Current Academic Year	Assessment Data Fall, Spring, Summer	Data to be Collected/Analyzed	Assessment Plan Utilized	Outcome A for Review	Outcome B for Review
2019-2020	2019-2020	Comprehensive Exams	Assessment Plan 2020	1	2
2020-2021	2020-2021	Comprehensive Exams /Internship/ Dissertation	Assessment Plan 2020	2	3-4
2021-2022	2021-2022	Internship/ Audits	Assessment Plan	3-4	5

		Dissertation	2020		
2022-2023	2022-2023	Comprehensive Exam / Audits	Assessment Plan 2020	5	1
2023-2024	2023-2024	Internship/ Audits/State Licensure	Assessment Plan 2024	1	2
2024-2025	2024-2025	Internship/ Team Projects/Individual Reports	Assessment Plan 2024	2	3-4

2. Describe how, and the extent to which, program faculty contributed to the development of this plan.

All members of the Education Leadership Faculty worked on the SOE’s “Growing Together Day” in February 2020 and “Moving Forward Day” in September 2020 to discuss and write this Assessment Plan for the Educational Leadership Ph.D. Program. Between these dates, faculty worked in smaller groups to provide feedback for improving the plan and discuss the alignment of curriculum, assessment data, and instruction. Final discussions and revision of the plan were conducted November 2020; then again in August 2021.

IMPORTANT: Please remember to submit any rubrics or other assessment tools along with this plan.
