

SAINT LOUIS UNIVERSITY

SCHOOL OF SOCIAL WORK

CONTINUING EDUCATION PROVIDER

Evidenced-Based Practices for Individuals with Autism and their Families

PROFESSIONAL PRACTICE INSTITUTE

Course Description

The course will provide evidenced-based interventions in working with persons with Autism Spectrum Disorder. Assessment and treatment approaches for individuals with ASD will include behavioral, academic, socio-emotional, and vocational areas of practice. Strategies for caregivers, family/siblings, and the larger community will be discussed as well.

Learning Objectives

1. Identify biopsychosocial aspects of Autism Spectrum Disorder (ASD).
2. Understand evidenced-based practices for persons with ASD.
3. Apply evidenced-based interventions for individuals with ASD and family.
4. Label environmental mechanisms needed to support behavior change.

Presented by

Alyssa N. Wilson, PhD., BCBA-D, LBA. is an Assistant Professor and Director of the Applied Behavior Analysis program. She is a Board Certified Behavior Analyst-Doctoral, and a Licensed Behavior Analyst in Missouri. She has provided behavior analytic services to a range of populations including children and adults with behavioral addictions, developmental disabilities, and emotional dysregulation. She has published articles on the assessment and treatment of severe and challenging behaviors, specializing in using acceptance and mindfulness-based interventions.
