

Criminal Background Checks and Drug Testing for SLU Social Work Practicum Students

Criminal Background Check:

Some practicum sites require a criminal background check before you can begin practicum. Ask your site if they require such a check and whether or not the site will conduct the check for you. If you are responsible, Saint Louis University's Office of Clinical Education Compliance conducts background checks for students. For more information or to schedule an appointment, go to their webpage: <https://www.slu.edu/registrar/services/background-checks.php>

OR contact Felicia Echols (fechols@slu.edu).

NOTE: The cost for different types of background checks are listed below.

Prices are subject to change as we continue to review what is most efficient and cost effective way to meet the needs of students and our affiliates.
